Re: Compliancy Delinquency

The following information is compiled from statistics we obtained from a site visit to Jakes Corner Water System on Friday, April 27, 2007.

1. Our peak usage during June, 2006 per day is 3,196 gallons
2. We have a new pressure (bladder) tank at the well site and an existing 5,000 gallon storage tank on site.
3. Jakes Corner Water Supply has 20 customers, 15 full time residents.

We will repair, this month, the leak at the gauge connection, patch the cracks in the concrete slab and remove the weeds in the well site area.

Please feel free to call us if you need further information.

Sincerely,

Kacy Parker
